

Trainwreck Express

Based on the designs of

Ken Fischer

From Kelly '90 schematic with UR12's revisions to correlate with Francesca photos

D- all diodes 1N4007

* May need to change values to achieve correct bias. See: http://ampgarage.com/forum/viewtopic.php?t=1338&highlight=express+bias+resistor

* Show in many TW schematics as a single 18k2 4W resistor, but usually implemented this way
